

Meet the Clover Family Product Suite

Customized point of sale systems that make business operations easy.

Leveraging Clover means you'll be equipped to do so much more than just accept payments – you'll be able to configure your Clover system with the perfect blend of devices and apps that are best suited to efficiently run your business.

Clover Station Pro

Takes the powerful combination of a Mini tethered to a Station and delivers a purpose-built and easy-to-use packaged solution

- + Native 4G/LTE Connectivity
- + EMV, NFC, MSR payment acceptance
- + Improved order accuracy, customer engagement and loyalty program facilitation

Clover Station 2018

All-in-one countertop POS with a cash drawer and receipt printer

- + 14-inch HD merchant-facing screen
- + Fully integrated EMV, NFC and MSR payment acceptance
- + Integrated fingerprint login for up to 20 employees

Clover Flex

Offers the ultimate flexibility: use it in line, at the table, at the counter or on the go

- + WiFi and LTE connectivity and a lithium-ion battery provide no-fail redundancy
- + Fully integrated EMV, NFC and MSR payment acceptance
- + Accept payments inside and outside your business

Clover Mini

Accept swipe, EMV chip, NFC and MSR payments right out of the box with this compact countertop POS

- + Hardware that scales - add more POS components as you grow
- + Receipts print directly from device
- + Cut chip card transaction time down to under 3 seconds, and serve more customers

Clover Go

Smartphone-ready for secure card swipes, dips and contactless payments

- + Out-of-box processing: just charge, connect and pair with the Clover Go app
- + Accept all payment types anywhere you have WiFi or a cellular connection
- + All Clover Go actions sync with the Clover web dashboard

Clover Features to Love

2020 Clover Software as a Service (SaaS) SaaS Plans: Focused on two categories: Payments-Focused and Business Management/Customer-Engagement, 2020 brings several new SaaS plans to meet your merchant needs, from table service to countertop and more!

Clover Dining: Restaurants can manage their tables and orders straight from a tablet – features include transferring tables between servers, splitting item costs between guests, combining orders and more.

App Market: With 400+ applications to choose from, it's simple to sync with popular third-party apps to fulfill a business's unique payments needs.

Virtual Terminal: The Clover Virtual Terminal provides the flexibility and convenience of processing payments (and refunds!) wherever you happen to be. Just log into your Clover Web Dashboard from a smartphone, tablet or computer and you're ready for business anytime, anywhere.

Gift Cards: Attract more foot traffic, retain existing customers and enjoy a full range of gift card tools – including custom branding and card inventory management – all with Clover Gift Cards.

Customer Engagement: Engage customers and stimulate business growth. With loyalty points, feedback apps, customer bonuses and more, you have a direct connection to the customer experience
